

# WEST CANNON BAPTIST

BELMONT, MICHIGAN

*West Cannon is an  
inspiring look at  
how beautiful a  
customized  
Octagon sanctuary  
can be.*

In February, 1996, UCS's crew traveled to Grand Rapids, Michigan, to assemble the shell for West Cannon Baptist Church. To best meet its needs the committee decided on a 97' Octagon (6,705 s.f.). What resulted was a showcase for McMaster Corporation and for United Church Structures.

The design for West Cannon Baptist was developed locally in Grand Rapids by ASLAN Architecture. The design phase was overseen by Mr. Tim Curry. When it came time to begin construction, West Cannon's congregation turned to one of their members, Mr. Jerry McMaster of McMaster Corporation. McMaster's representative, Tim Anderson, was on site during the project to oversee the details of its completion.

West Cannon connected its new Octagon structure to its present facility. The main sanctuary is a beautiful area which makes exquisite use of detailed lighting techniques. From the forest green carpeting to the beige walls, and the richly stained laminated beams, West Cannon was designed with tremendous attention to detail. This church is another example of how a UCS package is customized to fit a church community's personality and needs. If you would like more information on West Cannon or UCS, please call 800-854-0977.
